---

Full Stack Developer focused on building products. I combine technology, AI, product, and design to turn ideas into products and brands.

## PROJECTS

---

**Mavry** - Product clarity system for early-stage products

- Built a product clarity system for founders and builders that turns scattered ideas into a defined MVP with clear scope, roadmap, and explicit product decisions.
- Designed a workflow that connects ideas, features, MVP scope, roadmap, cut list, and decision log while preserving the context and traceability of every decision.
- Implemented an AI system that analyzes product context to prioritize features, assess launch readiness, identify blockers, and recommend what to build, defer, or discard.
- Stack: TypeScript, NestJS, TanStack Start (React), Expo (React Native), TanStack Router, TanStack Query, tRPC, Drizzle ORM, Neon DB (PostgreSQL), Better Auth, Upstash (Redis), AI SDK, Tailwind CSS, Unwind, Shadcn/ui, Polar, Resend, Vite, Turborepo.

**Motiq** - Autonomous Customer Intelligence platform powered by AI Agents

- Built a B2B SaaS powered by autonomous AI Agents that monitor customer feedback 24/7 to identify patterns and prevent churn in real time.
- Designed the backend architecture and integrated Slack, Linear, Telegram, and Notion to process data asynchronously and automate ticket routing.
- Built the product end to end: authentication, subscriptions, landing page, and an interactive dashboard.
- Stack: TypeScript, Hono, TanStack Start (React), TanStack Router, TanStack Query, tRPC, Drizzle ORM, Neon DB (PostgreSQL), Better-Auth, Upstash (Redis), AWS S3, Tailwind CSS, Shadcn/ui, Polar, Resend, Vite, Turborepo.

## EDUCATION

---

**Dr. José María Guerci Secondary School No. 4**

Feb 2018 - Dec 2023

High School Diploma in Economics and Business Administration.

## SKILLS

---

JavaScript, TypeScript, Node.js, Bun, NestJS, Express.js, Hono, React(Vite), Next.js, TanStack (Vite), PostgreSQL, Redis, SQLite, MongoDB, MySQL, SQL Server, Drizzle ORM, Prisma, TypeORM, Docker, AWS S3, Git, Github.

## LANGUAGES

---

**SPANISH:** Native.

**ENGLISH:** Basic.
